

KULJIT SINGH DHALIWAL

Frontend Developer | React.js Developer

Phone: +91-88473-89488

Email: kuljitsingh9488@gmail.com

LinkedIn: <https://www.linkedin.com/in/kuljit-singh-dhaliwal-391b15210/>

GitHub: <https://github.com/KuljitDhaliwal>

Location: Ludhiana, Punjab, India

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive web applications using React.js, JavaScript, HTML, and CSS. Experienced in developing reusable components, implementing authentication flows, protected routes, state management, API integration, and modern frontend development practices. Strong problem-solving skills with ongoing experience building real-world projects and continuously improving JavaScript, React.js, and Data Structures & Algorithms knowledge.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, React Router

State Management: Context API, Redux

Authentication: JWT Authentication, Protected Routes

Tools & Technologies: Git, GitHub, REST APIs, Responsive Design

Programming Concepts: DOM Manipulation, Closures, Debouncing, Event Loop, Asynchronous JavaScript

Problem Solving: Data Structures & Algorithms, LeetCode

PROFESSIONAL EXPERIENCE

VIRTUAL

Virtual Assistant & Technology Support

2018 – 2024

- Worked as a Virtual Assistant supporting business operations, client requirements, and day-to-day project activities.
- Managed administrative, operational, and client-focused tasks in a technology-driven work environment.
- Developed strong communication, problem-solving, and organizational skills through professional experience.

- During the final year of employment, actively contributed to coding-related support tasks and frontend implementation activities.
- Worked with HTML, CSS, JavaScript, and React.js while assisting with web application development and UI-related tasks.
- Participated in frontend development workflows including responsive layouts, UI implementation, debugging, and feature support.
- Strengthened practical knowledge of modern web development through hands-on project work and continuous learning.

PROJECTS

WIZZCABS – Taxi Booking Platform

Technologies: React.js, JavaScript, Context API, React Router, JWT Authentication, REST APIs

- Developing a taxi booking application with separate user and driver workflows.
- Implemented authentication and authorization using JWT.
- Built protected routes and route-based navigation using React Router.
- Developed reusable React components and responsive user interfaces.
- Integrated API communication for booking and user management workflows.
- Implemented Context API for application-wide authentication state management.

React Authentication & Routing Dashboard

Technologies: React.js, Context API, React Router

- Built a dashboard application featuring protected routes and nested routing.
- Implemented authentication flow using Context API.
- Developed layout-based routing using Outlet and nested routes.
- Added route protection and redirection for unauthorized users.

React Registration Form with Validation

Technologies: React.js, JavaScript

- Built a registration system with form validation.
- Implemented reusable custom hooks including debounce functionality.
- Managed controlled form inputs and validation workflows.
- Improved user experience through optimized validation logic.

EDUCATION

Bachelor of Computer Applications (BCA)

2015 – 2018

CGPA: 7.8

ADDITIONAL INFORMATION

- Actively building React.js applications and strengthening frontend engineering skills.
- Regularly practicing JavaScript and Data Structures & Algorithms.
- Comfortable working with Git, GitHub, REST APIs, and modern React development workflows.
